

Health Economics Conference scheduled on October 07-08, 2020 at Vienna, Austria

Sinead Furey

Professor, Ulster University, Northern Ireland. E-mail: ms.furey@ulster.ac.uk

Health Economics conferences 2019 is anticipating participation from renowned speakers including researchers, Health Economists, Healthcare Industry leaders, Health Policy Makers, Health care administrators, health care professionals, Nursing Professionals, Pharmaceutical and health insurance companies and many from leading universities. The scientific program paves a way to gather visionaries through the plenary lectures, research talks, workshops, and symposia invited sessions and oral and poster sessions of unsolicited contributions.

We hope and expect Health Economics Congress 2020 theme to inspire a number of research avenues, and look forward to discussing findings, ideas and synergies in this Global Academic Forum.

[Health Economics](#) is a branch of economics concerned with issues related to efficiency, effectiveness, value and behavior in the production and consumption of health and healthcare. In broad terms, health economists study the functioning of healthcare systems and health-affecting behaviors such as smoking.

Health Economists evaluate multiple types of financial information: costs, charges and expenditures. Uncertainty is intrinsic to health, both in patient outcomes and financial concerns. The knowledge gap that exists between a physician and a patient creates a situation of distinct advantage for the physician, which is called [asymmetric information](#).

Externalities arise frequently when considering health and health care, notably in the context of infectious disease. For example, making an effort to avoid catching the common cold affects people other than the decision maker. The demand for healthcare is a derived demand from the demand for health. Healthcare is demanded as a means for consumers to achieve a larger stock of "health capital." The demand for health is unlike most other goods because individuals allocate resources in order to both consume and produce health.

With the success of Health Economics 2019 conference, we are glad to announce our next upcoming conference 6th World Congress on [Health Economics](#), Health Policy and Healthcare Management at Vienna, Austria on October 07-08, 2020. The conference will serve as a platform to bring together leading health

economists with different specialties. Health Economics 2020 will discuss on the topics such as Health Care Services, Health Insurance, Public Health Economics, Health Care Markets, Economic Epidemiology and Infectious Diseases, Mental health, Health Economics Modelling, [Health Economics](#) and International Economics, Health Econometrics, Healthy Aging, Health Statistics, Health Financing, Pharmaceutical Economics, Macroeconomics, Health Economics and Hospital Services, Health Economics and Managed Care, Health Economics and Financing, Health Economics and Health Informatics.

Health Economics Congress 2020 supported by the organizing committee network such as Sinead Furey, Ulster University Northern, Ireland and Farid Shirazi, Ryerson University, Canada. The goal of the event is to provide a place for academicians and professionals with the interests related to health economics, healthcare, advanced healthcare and primary care to meet and interact with members inside and outside their own particular methods.

Health Economics Congress 2020 is going to be held during January, 2020 to December, 2020 at various cities in Europe (London, Barcelona, Madrid, Valencia, Rome, Milan, Berlin, Frankfurt, Vienna, Zurich, Dublin, Edinburg and Many More).
